

A photograph of a bright bedroom. In the center is a double bed with a dark green upholstered headboard and wooden legs. The bed is dressed in white linens, including a striped pillow and a textured duvet. To the left, a white armoire with intricate carvings is visible. The room is flooded with natural light from a large window behind the bed, which looks out onto a garden. A large green circular graphic overlaps the bottom left of the image.

# Thank you for choosing a Tuur® Box Spring.

With your purchase, you've taken the step towards a new way of sleeping. Our mattresses are designed to improve your sleep — whether you suffer from physical discomfort, insomnia, or are simply looking for the ultimate comfort.

With over 50 years of experience and close collaboration with ergonomists and physiotherapists, we create mattresses that excel in ergonomics, health, and sustainability. We use as many natural, toxin-free materials as possible, ensuring long-lasting performance.

The unique composition of our products provides optimal body support and promotes healthy, restorative sleep.

We hope that you and your Tuur® box spring are the perfect match.

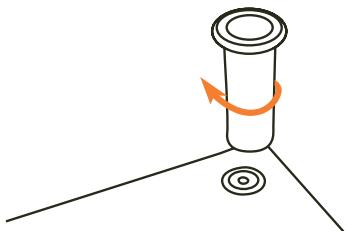

Sleep well,

*Amber from Tuur*

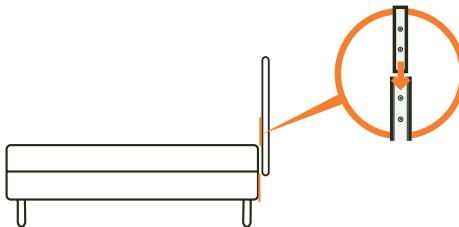

## Installation of the box spring

1.

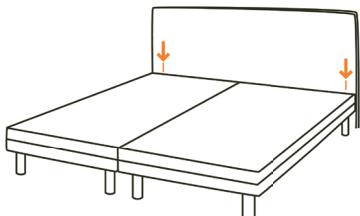

Attach the legs. Simply screw them into the designated openings.

2.

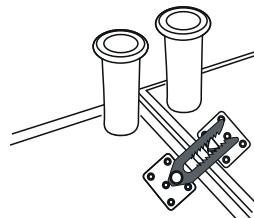

Attach the headboard. Make sure to keep the headboard aligned with the box spring.

3.

Carefully slide the headboard into the designated rails. See the illustration in Step 2. The headboard requires support at the back, so always make sure it is positioned against a wall.

4.

If you purchased a double box spring: connect the two box springs using the click-link clamp.

**For disassembling the box spring, follow the same steps in reverse order.**
