First use of your Tuur® Pillow

The **Tuur® pillow** has been carefully crafted for you with great attention and expertise. For the best experience, we recommend airing the pillow upon arrival and gently fluffing the cover. This allows the material to fully expand so you can immediately enjoy its natural comfort.

It's time for your first nap or night's sleep on your Tuur® pillow.

Sweet dreams!

How to care for your pillow

The core of your Tuur® Pillow is not washable, but it is naturally anti-allergenic and anti-bacterial. Regular airing will keep your pillow fresh.

The cover of your Tuur® Pillow is washable. It can be machine washed at up to 40°C. The cover is not suitable for the tumble dryer, so let it dry on a drying rack or clothesline.

Make your sleep complete

Tuur® Mattress Protector

The optimal protection for your mattress, made from 100% organic cotton. The Tuur® Mattress Protector is breathable, washable, and helps reduce allergy symptoms. Combine it with a Tuur® Mattress or Tuur® Topper? Of course! The Mattress Protector perfectly matches the ventilating and healthy character of other Tuur® products. Thanks to its dense weave, your mattress or topper is well protected. This Mattress Protector is not waterproof, as this would completely block the mattress's breathability.

The Tuur® Mattress Protector is suitable for all Tuur® Mattresses or a combination of a Tuur® Mattress and Topper. In addition, you can also use it on mattresses from other brands with a height between 20 and 30 cm.

Naturally you sleep better
